Vedligeholdelse af dit bord

Tillykke! Du har købt et kvalitetsprodukt fra Garlando.

Dette bord er kun til indendørs brug, hvor samling og brug ligeledes skal foregå indendørs.

VIGTIGT: Når bordet er samlet fylder det mere - så vi anbefaler at bordet samles i rummet det skal stå for at undgå problemer med at få det igennem døre og andet.

For at sikre lang levetid på dit bord - finder du herunder nogle relevante tips:
Dit bord er produceret til indendørs brug - så det må ikke efterlades udendørs.
Regn, sne og høj luftfugtighed kan skade materialerne.
Ydermere kan længere tid i sol resultere i misfarvning af materialerne.

Rengør dit bord jævnligt.

Normal rengøring klares med en hårdt opvredet fugtig klud.

For grundigere rengøring kan du bruge almindelig sulfo som ikke indeholder voks eller skurepulver.

Garlando's stænger kræver ikke rengøring.

Ønsker du derimod at forbedre stængerne kan disse smøres med kvalitets silikone spray.

Vi fraråder al brug af vegetalsk olie eller anden form for olie, da du risikerer at tiltrække skidt.

Garlando accepterer ikke reklamationer, hvor problemet er resulteret af at ovenstående instruktioner ikke er fulgt.

Care and maintenance instructions for your table

Congratulations! You have bought a first quality table.

It is an indoor table: please assemble it and use it indoors only.

IMPORTANT: Once assembled your table is quite wide and may not fit through your doors. For this reason you should assemble it in the room you intend it to be used. Should you wish to move your table to another room, it might be necessary to remove its legs.

In order to ensure its long life and continued playing appeal, we recommend that you follow the simple instructions below:

1. Your table has been manufactured for indoor playing: do not leave it outdoors. Rain, snow and high humidity may damage its materials. Prolonged exposure to the sun is to be avoided too, due to its ultraviolet effects which will ruin the colours.
2. Clean your table periodically. It is sufficient to wipe its surfaces using a damp cloth. For a deeper cleaning you can use any household detergent which does not contain wax or abrasives. Should you wish to furtherly improve bars smoothness, only employ a good quality silicone spray. Please be careful not to use any vegetal or any other type of grease or you run the risk of attracting dirt.

Garlando does not accept any responsibility for damages resulting from disregarding these instructions.
